Hello,

I would like it if someone could ensure that all citizens of the province fall under some sort or district or county that ensures we all pay our fair share of property taxes. I live in [REDACTED] NL and pay approximately \$[REDACTED]/ year in property taxes, just to have the snow cleared and garbage picked up (no water or sewer). There are some residents on this province that don't pay anything in regards to property tax.

Either rezone or reclassify areas (counties), so we all pay our fair share of taxes or implement a system or bylaw that does not allow towns to charge residents extreme taxes just because of the value of their house. I have less services than most in [REDACTED] yet pay more taxes, just because my house and property are a certain size.

It seems like there are few that pay for everything and some that pay nothing. Time to stop the free ride.

Jim
