Subject: Municipal Legislative Review

Hi, I understand that you are in the process of updating the Municipalities Act and the City of St. John's Act. I also understand that the current Municipalities Act and the City of St. John's Act lack a wetlands policy. In order to protect and support our current limited wetlands in St. John's I would like to "encourage you to include wetland legislation in the City of St. John's Act that protects and preserves what we have left of our wetlands and other environmentally valuable areas.

Thank you for your consideration.

Wade Barney
